Education

Computer Science
Currently applying   Present

Diploma of Education, Empirical Science
Razi University High School │ GPA: **18.8** / 20   2021 - 2024

English Language and Literature
Iran Language Institute │ GPA: **89** / 100   2017 - 2022

COURSES

Front End Development Libraries
FreeCodeCamp   03/2025
- Acquired mastery of modern Frameworks such as React and SCSS . And to maintain legacy code I learned how to utilize jQuery and Bootstrap

JavaScript Algorithms and Data Structures
FreeCodeCamp   02/2025
- As the primary language for the web JavaScript required dedication and precision , and with many topics such as recursion , loops , regex, and array methods it was a great language to create projects with

Responsive Web Design
FreeCodeCamp   11/2024
- Learned The Bases of Web Design by Mastering HTML5 and CSS through a series of project based lessons

PROJECTS

MyF1   04/2025 - Present
TypeScript, *React*, *JavaScript*
- A full web using **OpenF1**'s **API** to get a great wealth of information
- Utilized **Cloudflare**'s production ready **Proxy** to add **CORS** headers in production
- Upon completion It'll broadcast *LIVE LAP TIMINGS, CAR TELEMETRY, RADIO COMMUNICATIONS* and so on
- A great way to provide **500 MILLION F1 fans** free access to F1 and to receive criticism from

Mini Projects   11/2024 - 03/2025
React, *JavaScript*, *Bootstrap*, *jQuery*, *SCSS*
- **Project Based Learning** will forever be my motto, it has pushed me to where I am
- Completed more than **30 projects** to live up to that motto and will continue to create this projects
- Developed many **practice-projects/mini-projects** to practice every topic I learned
- Covered most general coding projects including *MyCalculator, Runner App, TODO App, RPG Game* and many more
