Education

Computer Science   **present**
   I'm currently applying , optimist to secure an entry at a good university

Diploma of Education , Empirical Science | *GPA : 18.88 / 20*   **2021-2024**
   Razi University High School
   School is a pivotal moment in every human's life through which I grasped the mathematical
   foundation I needed for the beginning of my journey as a developer

English Language and Literature | *GPA : 89 / 100*   **2017-2022**
   Iran language institute
   Alongside the academics I used YouTube to learn the language of programming , English

Courses

Front End Development Libraries | *View*   **Mar 2025**
   FreeCodeCamp
   •Acquired mastery of modern Frameworks such as **React** and **SCSS** . And to maintain legacy
   code I learned how to utilize **jQuery** and **Bootstrap**

JavaScript Algorithms and Data Structures | *View*   **Feb 2025**
   FreeCodeCamp
   •As the language for the web **JavaScript** required dedication and precision , and with many topics
   such as recursion , loops , regex, and array methods, it's a great language to create **projects** with

Responsive Web Design | *View*   **Nov 2024**
   FreeCodeCamp
   •Learned The Bases of **Web Design** by Mastering **HTML5** and **CSS** through a series of project based
   lessons as my first ever coding experience

Projects

My F1 | *TypeScript, React, JavaScript*   **Apr 2025-present**
   •A Full web App using **OpenF1**'s **API** to get a great wealth of information with the **JSON** format
   •Utilized **Cloudflare**'s production ready **Proxy** to add **CORS** headers in production
   •Upon completion It'll broadcast *Live lap timings*,*Car telemetry*,*Radio communications* and so on
   •A great way to provide **500 MILLION** F1 fans free access to F1 and to receive criticism from

Maped | *React, JavaScript, TypeScript*   **upcoming**
   •As my next Full web App I'll create a site that'll **generate Building Maps** for any building only
   by providing general particulars such as land area and number of floors
   •I've already talked to an **actual civil engineer** to be obedient to **Iran's National Building Code**

Mini Projects | *jQuery, SCSS, Bootstrap, JavaScript, React*   **Nov 2024-Mar 2025**
   •**Project Based Learning** will forever be my motto, it has pushed me to where I am
   •Completed more than **30 projects** and counting to live up to that motto
   •Developed many **practice-projects/mini-projects** to practice every topic I learned and will
   continue to create this projects
   •Covered most general coding projects including *MyCalculator*, *Runner App*, *TODO App*, *RPG
   Game* and many more

Technical Skills

Languages: JavaScript, TypeScript , CSS, HTML5

Developer Tools: Copilot, Deepseek, Jira

Libraries/Frameworks: Bootstrap, Redux, jQuery, SCSS, Motion-Framer, React
